NEWS RELEASE - FOR IMMEDIATE RELEASE

APRIL 30, 2008

Equity Residential Reports First Quarter ResultsSame Store NOI Increases 4.7%

Chicago, **IL – April 30**, **2008** – Equity Residential (NYSE: EQR) today reported results for the quarter ended March 31, 2008. All per share results are reported on a fully-diluted basis.

"To date, despite a slowing economy and disappointing job numbers, apartment fundamentals remain fairly healthy across most of our markets. We have performed on plan through the first four months of the year and May appears likely to continue that trend. As we enter our primary leasing season 95% occupied, we remain confident that our 2008 operating performance will meet our original expectations," said David J. Neithercut, Equity Residential's President and CEO.

First Quarter 2008

For the quarter ended March 31, 2008, the company reported earnings of \$0.51 per share compared to \$0.40 per share in the first quarter of 2007. The increase is primarily attributable to higher income from continuing operations and higher gains on property sales.

Funds from Operations (FFO) for the quarter ended March 31, 2008 were \$0.59 per share compared to \$0.55 per share in the same period of 2007. The \$0.04 per share increase in the first quarter of 2008 is due primarily to:

- A net positive impact of approximately \$0.02 per share from higher total net operating
 income (NOI) as a result of higher NOI from the company's same store portfolio and the
 lease up of development and other non-same store properties, partially offset by dilution
 from the company's 2007 and 2008 transaction activity;
- A net positive impact of approximately \$0.03 per share due primarily to lower floating rates of interest, higher capitalized interest and lower share count partially offset by the increased interest expense associated with the company's 2007 share buyback;
- A positive impact of approximately \$0.01 due to lower preferred share distributions; and
- A reduction of approximately \$0.02 per share from higher income taxes and a number of non-comparable items listed on page 23 of this release.

The difference between the company's first quarter 2008 FFO of \$0.59 per share and the company's fourth quarter 2007 FFO of \$0.67 per share is primarily attributable to the following:

- Approximately \$0.08 per share less in FFO in the first quarter of 2008 due to a number of one-time items that had a positive impact in the fourth quarter of 2007, including insurance recoveries and reserve adjustments, an insurance settlement and income tax refunds;
- Approximately \$0.01 per share less in FFO in the first quarter of 2008 due to slightly lower same store NOI and dilution from 2008 transactions activity partially offset by the positive impact of the lease up of development and other non-same store properties; and
- Approximately \$0.01 per share of higher FFO in the first quarter of 2008 due to lower interest expense from lower rates, partially offset by lower interest income on 1031 exchange accounts.

Same Store Results

On a same store first quarter to first quarter comparison, which includes 121,826 apartment units, revenues increased 3.5%, expenses increased 1.6% and NOI increased 4.7%. The increase in same store revenues was driven primarily by an increase in rental rates.

Acquisitions/Dispositions

During the first quarter of 2008, the company acquired two properties, consisting of 171 apartment units, for an aggregate purchase price of \$41.9 million at an average capitalization (cap) rate of 5.0%.

Also during the quarter, the company sold 15 properties, consisting of 3,317 apartment units, for an aggregate sale price of \$271.6 million at an average cap rate of 5.8% generating an unlevered internal rate of return (IRR) of 10.7%. In addition, the company sold 41 condominium units for \$9.4 million.

Liquidity

On March 10, 2008, the company closed a \$500 million Freddie Mac secured loan with an all-in effective interest rate of 5.48%. The company currently has approximately \$1.4 billion available on its unsecured revolving credit facility and approximately \$325 million of unrestricted cash. The company's liquidity is sufficient to retire all of its 2008 loan maturities as they come due. The company anticipates having approximately \$1.0 billion of availability on its unsecured revolving credit facility at year end 2008.

Second Quarter 2008 Earnings Guidance

The company has established an FFO guidance range of \$0.61 to \$0.65 per share for the second quarter of 2008. The difference between the company's actual first quarter 2008 FFO of \$0.59 per share and the midpoint of the second quarter 2008 guidance range is primarily a result of higher NOI from the company's same store properties as well as the continuing positive impact from the lease up of development and other non-same store properties offset by some transaction dilution in the second quarter of 2008.

Second Quarter 2008 Conference Call

Equity Residential expects to announce second quarter 2008 results on Wednesday, July 30, 2008 and host a conference call to discuss those results at 10:00 a.m. CT on Thursday, July 31, 2008.

Equity Residential is an S&P 500 company focused on the acquisition, development and management of high quality apartment properties in top U.S. growth markets. Equity Residential owns or has investments in 565 properties located in 24 states and the District of Columbia, consisting of 149,769 apartment units. For more information on Equity Residential, please visit our website at www.equityresidential.com.

Forward-Looking Statements

In addition to historical information, this press release contains forward-looking statements and information within the meaning of the federal securities laws. These statements are based on current expectations, estimates, projections and assumptions made by management. While Equity Residential's management believes the assumptions underlying its forward-looking statements are reasonable, such information is inherently subject to uncertainties and may involve certain risks, including, without limitation, changes in general market conditions, including the rate of job growth and cost of labor and construction material, the level of new multifamily construction and development, competition and local government regulation. Other risks and uncertainties are described under the heading "Risk Factors" in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC) and available on our website, www.equityresidential.com. Many of these uncertainties and risks are difficult to predict and beyond management's control. Forward-looking statements are not guarantees of future performance, results or events. Equity Residential assumes no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

###

A live web cast of the company's conference call discussing these results and outlook for 2008 will take place tomorrow, Thursday, May 1, at 10:00 a.m. Central. Please visit the Investor Information section of the company's web site at www.equityresidential.com for the link. A replay of the web cast will be available for two weeks at this site.

- (1) The National Association of Real Estate Investment Trusts ("NAREIT") defines funds from operations ("FFO") (April 2002 White Paper) as net income (computed in accordance with accounting principles generally accepted in the United States ("GAAP")), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. The April 2002 White Paper states that gain or loss on sales of property is excluded from FFO for previously depreciated operating properties only. Once the Company commences the conversion of units to condominiums, it simultaneously discontinues depreciation of such property. FFO available to Common Shares and OP Units is calculated on a basis consistent with net income available to Common Shares and reflects adjustments to net income for preferred distributions and premiums on redemption of preferred shares in accordance with accounting principles generally accepted in the United States. The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the "Minority Interests Operating Partnership". Subject to certain restrictions, the Minority Interests Operating Partnership may exchange their OP Units for EQR Common Shares on a one-for-one basis.
- (2) The Company believes that FFO and FFO available to Common Shares and OP Units are helpful to investors as supplemental measures of the operating performance of a real estate company, because they are recognized measures of performance by the real estate industry and by excluding gains or losses related to dispositions of depreciable property and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO available to Common Shares and OP Units can help compare the operating performance of a company's real estate between periods or as compared to different companies. FFO and FFO available to Common Shares and OP Units do not represent net income, net income available to Common Shares or net cash flows from operating activities in accordance with GAAP. Therefore, FFO and FFO available to Common Shares and OP Units should not be exclusively considered as alternatives to net income, net income available to Common Shares or net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company's calculation of FFO and FFO available to Common Shares and OP Units may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.

⁽¹⁾ The Company's primary financial measure for evaluating each of its apartment communities is net operating income ("NOI"). NOI represents rental income less property and maintenance expense, real estate tax and insurance expense, and property management expense. The Company believes that NOI is helpful to investors as a supplemental measure of the operating performance of a real estate company because it is a direct measure of the actual operating results of the Company's apartment communities.

⁽²⁾ Average rental rate is defined as total rental revenues divided by the weighted average occupied units for the period.

Same Store NOI Reconciliation First Quarter 2008 vs. First Quarter 2007

⁽¹⁾ Project and unit counts exclude all uncompleted development projects until those projects are substantially completed. See the Consolidated Development Projects schedule for more detail.

⁽²⁾ All debt is non-recourse to the Company with the exception of \$68.7 million in mortgage bonds on various development projects.

⁽³⁾ Represents the Company's current economic ownership interest.

⁽⁴⁾ Projects included here are substantially complete. However, they may still require additional exterior and interior work for all units to be available for leasing.

⁽¹⁾ Total capital cost represents estimated development cost for projects, all in accordance with GAAP.

⁽²⁾ Debt is primarily tax-exempt bonds that are entirely outstanding, with \$125.7 million held in escrow by the lender and released as draw requests are made. This escrowed amount is classified as "Deposits - restricted" in the consolidated balance sheets at 3/31/08.

⁽³⁾ Properties included here are substantially complete. However, they may still require additional exterior and interior work for all units to be available for leasing.

⁽¹⁾ Project start date represents the date that each respective property was acquired by the taxable REIT subsidiary and included in discontinued operations.

⁽²⁾ Amounts are net of \$102,000 in reserves for potential homeowners disputes for the quarter ended March 31, 2008.

⁽³⁾ Halted conversions includes the results of Sheridan Lake Club (Dania Beach Club) and Sage.

⁽⁴⁾ Excludes interest income, interest expense and certain other items specific to condominium conversion projects that ultimately eliminate in consolidation.

Also excludes depreciation expense on halted conversions (active conversions are not depreciated) and excludes income and other taxes on condominium sales and operations, if any.

Maintenance Expenses and Capitalized Improvements to Real Estate For the Quarter Ended March 31, 2008 (Amounts in thousands except for unit and per unit amounts)

- (1) Total Units Excludes 10,446 unconsolidated units and 3,731 military housing (fee managed) units, for which maintenance expenses and capitalized improvements to real estate are self-funded and do not consolidate into the Company's results.
- (2) Maintenance Expenses Includes general maintenance costs, unit turnover costs including interior painting, regularly scheduled landscaping and tree trimming costs, security, exterminating, fire protection, snow and ice removal, elevator repairs, and other miscellaneous building repair costs.
- (3) Maintenance Payroll Includes employee costs for maintenance, cleaning, housekeeping, and landscaping.
- (4) Replacements Includes new expenditures inside the units such as appliances, mechanical equipment, fixtures and flooring, including carpeting.
- (5) Building Improvements Includes roof replacement, paving, amenities and common areas, building mechanical equipment systems, exterior painting and siding, major landscaping, vehicles and office and maintenance equipment.
- (6) Established Properties Wholly Owned Properties acquired prior to January 1, 2006.
- (7) New Acquisition Properties Wholly Owned Properties acquired during 2006, 2007 and 2008.
- (8) Other Includes properties either partially owned or sold during the period, commercial space, corporate housing and condominium conversions. Also includes \$7.5 million included in replacements spent on various assets related to major renovations and repositioning of these assets.
- (9) For 2008, the Company estimates an annual stabilized run rate of approximately \$1,100 per unit of capital expenditures for its established properties.

Note: See page 25 for definitions, footnotes and reconciliations of EPS to FFO.

The earnings guidance/projections provided below are based on current expectations and are forward-looking.

2008 Earnings Guidance (per share diluted)

Q2 2008 2008

Expected FFO (1) (2) \$0.61 to \$0.65 \$2.45 to \$2.60

2008 Same Store Assumptions

Physical occupancy 94.5%
Revenue change 3.00% to 4.00%
Expense change 2.50% to 3.25%
NOI change 3.00% to 4.75%

(Note: 30 basis point change in NOI percentage = \$0.01 per share change in EPS/FFO)

2008 Transaction Assumptions

Rental acquisitions \$1.0 billion
Rental dispositions \$1.0 billion
Capitalization rate spread \$125 basis points

2008 Debt Assumptions

Weighted average debt outstanding \$9.7 billion - \$10.1 billion

Weighted average interest rate (reduced for capitalized interest and

including prepayment penalties) 4.84%

Interest expense (including discontinued operations) \$470.0 million - \$490.0 million

2008 Condominium Conversion Assumptions

Net incremental gain on sales of condominium units \$7.0 million to \$14.4 million Pre-tax net income - Condominium division (after overhead/operations) \$0.0 million to \$7.5 million

Effective tax rate 0%

Number of condominium unit sales 225 units - 400 units

2008 Other Guidance Assumptions

General and administrative expense \$48.0 million - \$50.0 million Interest and other income \$5.0 million - \$10.0 million Net gain on sales of land parcels No amounts budgeted Preferred share redemptions No amounts budgeted

Weighted average Common Shares and OP Units - Diluted 290.9 million

Note: See page 25 for definitions, footnotes and reconciliations of EPS to FFO.

Definitions and Footnotes for Pages 23 and 24

- (1) The National Association of Real Estate Investment Trusts ("NAREIT") defines funds from operations ("FFO") (April 2002 White Paper) as net income (computed in accordance with accounting principles generally accepted in the United States ("GAAP")), excluding gains (or losses) from sales of depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures will be calculated to reflect funds from operations on the same basis. The April 2002 White Paper states that gain or loss on sales of property is excluded from FFO for previously depreciated operating properties only. Once the Company commences the conversion of units to condominiums, it simultaneously discontinues depreciation of such property. FFO available to Common Shares and OP Units is calculated on a basis consistent with net income available to Common Shares and reflects adjustments to net income for preferred distributions and premiums on redemption of preferred shares in accordance with accounting principles generally accepted in the United States. The equity positions of various individuals and entities that contributed their properties to the Operating Partnership in exchange for OP Units are collectively referred to as the "Minority Interests Operating Partnership". Subject to certain restrictions, the Minority Interests Operating Partnership may exchange their OP Units for EQR Common Shares on a one-for-one basis.
- (2) The Company believes that FFO and FFO available to Common Shares and OP Units are helpful to investors as supplemental measures of the operating performance of a real estate company, because they are recognized measures of performance by the real estate industry and by excluding gains or losses related to dispositions of depreciable property and excluding real estate depreciation (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO and FFO available to Common Shares and OP Units can help compare the operating performance of a company's real estate between periods or as compared to different companies. FFO and FFO available to Common Shares and OP Units do not represent net income, net income available to Common Shares or net cash flows from operating activities in accordance with GAAP. Therefore, FFO and FFO available to Common Shares and OP Units should not be exclusively considered as alternatives to net income, net income available to Common Shares or net cash flows from operating activities as determined by GAAP or as a measure of liquidity. The Company's calculation of FFO and FFO available to Common Shares and OP Units may differ from other real estate companies due to, among other items, variations in cost capitalization policies for capital expenditures and, accordingly, may not be comparable to such other real estate companies.
- (3) Non-comparable items are those items included in FFO that by their nature are not comparable from period to period, such as net incremental gain on sales of condominium units, impairment charges, debt extinguishment costs and redemption premiums on Preferred Shares/Preference Interests.
- (4) Earnings represents net income per share calculated in accordance with accounting principles generally accepted in the United States. Expected earnings is calculated on a basis consistent with actual earnings. Due to the uncertain timing and extent of property dispositions and the resulting gains/losses on sales, actual earnings could differ materially from expected earnings.
